INDEX—VOLUME 3

ABO blood groups, 21, 48, 103, 333, 345, 357, 382
acrocephalia, 228
albinism, circumscribed, 195, 263
allergy, 293, 325
Alström, C. H., 79
anemia, Mediterranean, 47
animal improvement, 74
ankyloblepharon mediale, 199
anti-*s* antibody, 333
anxiety neurosis, 126
APPLEN, J. E., 282
ascertainment, completeness of, 41
associations, inter-syndrome, 262
ataxia, 93
atomic energy, effects, 81

BADAL, D. W., 126
BANTON, A. H., 47
Basques, 357
BAUER, J., 294
BECKER, S. W., JR., 267
bibliography, on twins, 289
birth order, in celiac disease, 161
  in psoriasis, 271
blepharophimosis, 196, 257
blood groups
  inheritance, 179, 332, 344, 356
  linkage data, 48, 103, 339
  medicolegal uses, 341, 362
  racial differences, 344, 356
reference texts, 75, 291
  zygosity diagnosis, 22, 340, 364
BONDY, E., 65
Boyd, W. C., 75
bulbar nuclear lesions, 98

CAMBIER, R. K., 282
cancer, 167, 293
Carabelli's anomaly or cusp, 348
Car Nicobar, 177
carcinoma, of colon and rectum, 167
Carus, C. G., 294
celiac disease, 159
cerebellar ataxia, 98
chi square, analysis of, 264
childhood muscular dystrophy, 111
cleidocranial dysostosis, 314
COHEN, M. E., 126
colon, carcinoma of, 167
color vision, anomalous, 282
concordance: see *twins*
conditional exclusion of paternity, 365
consanguinity, parental, in
  congenital deafness, 200, 237, 243
  psoriasis, 274
COTTERMAN, C. W., 254, 362, 376, 380
covariance, 256
cusp, maxillary molar, 348
Cyprus, Mediterranean anemia in, 47

dacryocystitis, 196, 203
deafness, congenital, 195, 263
  modes of inheritance, 242
deafness, partial, nerve, 310
dermatoglyphics, 21, 34, 376, 380
diabetes mellitus, and celiac disease, 163
discordance: see *twins*
discriminant function, 256
disease susceptibility, 17, 293
DOLOWITZ, D. A., 303
dominance, affecting probability for exclusions, 363
dosage effect, serologic, 340
Duffy blood groups, 333, 382
dystopia canthorum, 195, 254

effort syndrome, 126
epilepsy, 79
exclusion of relationships, 341, 362
experimental error, 329
eyebrows, hyperplasia of, 195, 254
eyelid, anomalies of, 195, 254

FEINGOLD, L., 65
FINNEY, D. J., 74
FITZPATRICK, T. B., 267
FRASER, F. C., 293
Friedreich's disease, 97

GARDNER, E. J., 167
Gedda, L., 285

gene frequency, estimated in
blood groups, 334, 345, 357
dystopia canthorum, 236
Mediterranean anemia, 56
muscular dystrophy, 121
neurocirculatory asthenia, 138
gout, 272
greying, premature, 242
Grobman, A. B., 81

HERNDON, C. N., 17, 314
heterochromia iridium, 195, 263
holandric transmission, 282
human genetics, history of, 1
hyperplasia radicis nasi, 195
hyperplasia supercilii medialis, 195
hypertelorism, 196, 228
hyperuricemia, in psoriasis, 272

identity, exclusion of, 333, 363
incomplete sex-linkage; see *sex-linkage*
interchanged children, 362, 380
interstitial pyelonephritis, 303
intestinal polyposis, 167
intestinal sprue, 159
iris, atrophy of, 202
iris bicolor, 248
iris, heterochromia of, 195, 263

JENNINGS, R. G., 17
JENSEN, C. M., 325

KALLMANN, F. J., 65
Kell blood groups, 102, 333
KIERLAND, R. R., 267
KILPATRICK, A., 126
KRAUS, B. S., 348

lacrimal puncta, displacement of, 196, 238
Lerner, I. M., 74
leucism, circumscribed, 195, 241, 263
Lewis blood groups, 333, 346
linkage, autosomal, 101, 266, 292
data for detecting, in
ataxia and blood groups, 101
Mediterranean anemia, 48
MNSs blood types, 339
poliomyelitis, 22
Lutheran blood groups, 333

MCCULLOCH, C., 77
MAGNÉE, W., 344, 356

malocclusion, dental, 77
mammalian genetics
pigmentary defects and deafness, 245
maternal age, in celiac disease, 161
mating selection, 322
maxillary molar cusps, 348
MAYER, C. F., 285
Mediterranean anemia, 47
Mexicans, 348
MEYER, S. N., 325
MNSs blood groups, 22, 103, 179, 332, 344 358, 363, 382
monozygosity, exclusion of, 364
morbidity risk, 80
MOURANT, A. E., 75
mouse, induced mutation in, 81
mutation, induced, 81
estimated rate of, in
cleidocranial dysostosis, 314
dystopia canthorum, 237
muscular dystrophy, 121

NEEL, J. V., 81
nephritis, 303
Netherlands,
blood groups in, 344, 359
deafmutism in, 235
dystopia canthorum and associated anomalies in, 195, 254
hereditary ataxia in, 94
neurocirculatory asthenia, 126
neurofibromatosis, 177
North Carolina, poliomyelitis in, 18
nose root, deformity of, 195, 254

olivo-ponto-cerebellar atrophy, 97
onset of disease in
hereditary ataxia, 94
muscular dystrophy, 122
psoriasis, 269, 277
ophthalmological genetics, 77

P antigen, 335, 382
Papago Indians, 348
partial sex-linkage, see *sex-linkage*
paternity, exclusion of, 341, 364
pathways in human genetics, 1
penetrance, 44, 231, 263, 274
PERKOFF, G. T., 303
physiognomy, 294

pigmentary abnormalities
in human syndromes, 200, 240
in animal syndromes, 245
pinna, defect of, 245
poliomyelitis, 17, 293
poliosis, 195, 241, 263
polygenes, 10, 74
polyposis, intestinal, 167
population genetics, 74
posterior column lesions, 98
poultry, egg production in, 74
protostyle, 348
pseudohypertrophy, muscular, 112
psoriasis, 267
pyschometric tests, 68
PTC taste reaction, 22, 103
pyelonephritis, 303
pyramidal tract, lesions of, 98

RACE, R. R., 291, 332
races, human, 75
racial variation in
blood groups, 75, 344, 356
Carabelli's anomaly, 348
congenital deafness, 237
Mediterranean anemia, 62
radiation, and mutation, 81
REED, E. A., 126
REED, S. C., 282
Rh blood groups, 21, 48, 103, 333, 344, 358
Rocher-Sheldon syndrome, 199

SANGER, R., 291, 332
SARKAR, S. S., 177
SCHUT, J. W., 93
secretor factor, 22, 363
selection, in animals, 74, 82
in man, 82, 121
senescence, in twins, 65
sex, in relation to
ataxia, 99
dystopia canthorum, 229, 262
Mediterranean anemia, 53, 60
muscular dystrophy, 113
psoriasis, 270
S, s antigens, 332
sex-linkage, complete, in
color vision defect, 282
muscular dystrophy, 113
sex-linkage, partial, tested in
ataxia, 99
dystopia canthorum, 230
pyelonephritis, 309
skeletal abnormalities, 197, 314
SNYDER, L. H., 1
Sorsby, A., 77
SOUCHARD, L., 356
spastic paraplegia, 100
status dysraphicus, 248
STEINBERG, A. G., 79, 267
STEPHENS, F. E., 111, 303
Surditas congenita, 195, 263
syndromes, 126, 195, 254, 314

teeth, 77, 314, 348
THOMPSON, M. W., 159
tuberculin allergy, 325
TURPIN, R., 293
twins,
abnormalities, 34, 97, 120, 160, 196, 209, 215, 222, 259, 283, 353
poliomyelitis, 17
reference works, 77, 285
senescence, 65
tooth size, 77
zygosity diagnosis, 21, 340, 362, 380
TYLER, F. H., 111, 303

Usher's syndrome, 227, 243, 244
Utah, muscular dystrophy in, 111

vaccination, 325
VAN DER HEIDE, H. M., 344, 356
VAN LOGHEM, J. J., 344, 356
variance analysis, 71, 260, 326

WAARDENBURG, P. J., 195, 254
WALKER, N. F., 77
WEXLER, I. B., 291
WHITE, P. D., 126
white forelock, 195, 241
WIENER, A. S., 179
wormian bones, 314

Y-linked inheritance, 282

zygosity diagnosis, 21, 340, 362
